

## Commodity Futures Trading Commission

## § 40.1

In addressing Core Principle M, applicants and registered derivatives clearing organizations may describe or otherwise document:

1. Applicable appropriate domestic and international information-sharing agreements and arrangements including the different types of domestic and international information-sharing arrangements, both formal and informal, which the clearing organization views as appropriate and applicable to its operations.

2. How information obtained from information-sharing arrangements would be used to carry out risk management and surveillance programs:

a. How information obtained from any information-sharing arrangements would be used to further the objectives of the clearing organization's risk management program and any of its surveillance programs including financial surveillance and continuing eligibility of its members/participants;

b. How accurate information is expected to be obtained and the mechanisms or procedures which would make timely use and application of all information; and

c. The types of information expected to be shared and how that information would be shared.

*Core Principle N: ANTITRUST CONSIDERATIONS—Unless appropriate to achieve the purposes of this Act, the derivatives clearing organization shall avoid (i) adopting any rule or taking any action that results in any unreasonable restraint of trade; or (ii) imposing any material anticompetitive burden on trading on the contract market.*

Pursuant to section 5b(c)(3) of the Act, a registered derivatives clearing organization or an entity seeking registration as a derivatives clearing organization may request that the Commission issue an order concerning whether a rule or practice of the organization is the least anticompetitive means of achieving the objectives, purposes, and policies of the Act. The Commission intends to apply section 15(b) of the Act to its consideration of issues under this core principle in a manner consistent with that previously applied to contract markets.

(b) *Forty-five day review.* All products submitted for Commission approval under this paragraph shall be deemed approved by the Commission forty-five days after receipt by the Commission, or at the conclusion of such extended period as provided under paragraph (c) of this section, unless notified otherwise within the applicable period, if:

(vi) Identify any Commission regulation that the Commission may need to amend, or sections of the Act or Commission regulations that the Commission may need to interpret in order to approve the proposed rule. To the extent that such an amendment or interpretation is necessary to accommodate a proposed rule, the submission should include a reasoned analysis supporting the amendment to the Commission's rule or interpretation; and

(vii) Identify with particularity information in the submission (except for a product's terms and conditions, which are made publicly available at the time of submission) that will be subject to a request for confidential treatment and support that request for confidential treatment with reasonable justification.

(e) *Effect of non-approval.* (1) Notification to a registered entity under paragraph (d) of this section of the Commission's refusal to approve a proposed rule or rule amendment of a registered entity does not prejudice the entity from subsequently submitting a revised version of the proposed rule or rule amendment for Commission approval or from submitting the rule or rule amendment as initially proposed pursuant to a supplemented submission.

(2) Notification to a registered entity under paragraph (d) of this section of the Commission's refusal to approve a proposed rule or rule amendment of a registered entity shall be presumptive evidence that the entity may not truthfully certify that the same, or substantially the same, proposed rule or rule amendment does not violate the Act or rules thereunder.
